2024 **Financial Results**

FORWARD-LOOKING STATEMENTS AND NON-MFRS FINANCIAL INFORMATION

This presentation includes forward-looking statements regarding future performance and events. These statements are based on various assumptions and expectations and may include projections of our future financial performance and anticipated trends. Forward-looking statements are subject to known and unknown risks, uncertainties, and assumptions that could cause actual results to differ materially from those expressed or implied in the statements.

Factors that could affect our actual results include, but are not limited to, changes in economic conditions, government regulations, and competitive pressures within the industry. Other factors include geopolitical tensions, changes in interest rates, and our ability to negotiate contracts and leases.

Additionally, factors such as the rate of recovery in air travel following the Covid-19 pandemic and changes in consumer behavior could impact our operations and financial performance. A downgrade in our credit ratings, regulatory changes, and changes in accounting standards are also among the potential risks.

We do not assure that the forward-looking statements in this presentation will prove to be accurate or correct. Investors are advised not to rely solely on these statements as a prediction of actual results. We do not undertake any obligation to update forward-looking statements, except as required by applicable law.

Financial measures prepared in accordance with the Malaysian Financial Reporting Standards (MFRS), this presentation includes certain non-MFRS financial measures. These measures are provided to assist investors in understanding our performance and should be used in conjunction with MFRS measures.

Please refer to our annual report and other filings with the relevant regulatory authorities for a discussion of important factors and risks affecting our business.

We do not assume any responsibility for the accuracy or completeness of forward-looking statements. Numbers presented in this document may not add up precisely due to rounding, and percentages may not precisely reflect absolute figures.

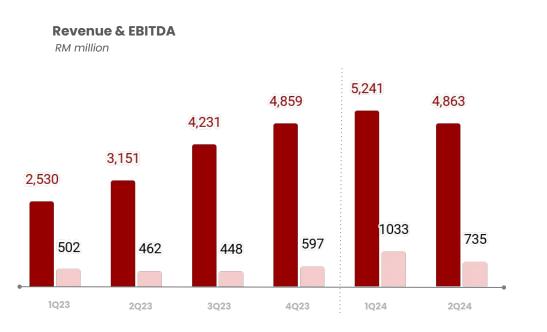

Executive Summary

- Second consecutive quarter of Net Operating Profit of RM52 million
 - RM735 million EBITDA despite over 10% of fleet yet to be reactivated
- Aviation Group achieves a solid 15% EBITDA margin despite adverse fuel and foreign exchange environment
 - Robust travel demand evident with a high load factor of 90%
 - Ancillary income grew 6% YoY to RM52 per passenger.
 - RASK of USc4.76 (+13% YoY) owing to 41% growth in pax carried coupled with 17% increase in average fare.
 - CASK ex-fuel of USc2.94 (-11% YoY), due to lower cost per ask for several line items including maintenance, depreciation and others.
 - Overall CASK of USc4.90 (-2% YoY) declined only slightly as it was offset by 6% YoY higher average fuel price of USD111 per barrel
 - Operational CASK of USc4.77 (+2% YoY), due to higher average fuel price, while operational CASK ex-Fuel declined by
- Capital A Companies achieve RM1.3 billion revenue in six months, posting a strong 10% EBITDA margin. The non-aviation businesses are poised for growth with international expansion, increased capacity and various revenue initiatives.
- YTD cash generated from overall Capital A operations doubled to RM2 billion.
- Operation heading towards stability; Capital A will firmly hold OEM partners accountable for any delays or negligence that hinder
 its
- **EGM circular** for proposed disposal of Aviation Group submitted to Bursa Malaysia for review and clearance.

Capital A Group Financial Highlights

Off-season success, 2Q2024 results surpass previous year's quarterly peak

- The Group's revenue stood at RM4.9 billion with EBITDA of RM735 million (15% margin), representing YoY increase of 54% and 59%.
- Achieved second consecutive quarter of net operating profit of RM52 million despite having 22 aircraft still on-ground
- Recorded net loss of RM542.5 million, which otherwise would be positive if it is not due to:
 - RM403.9 million unrealised forex loss
 - >RM175 million in finance and depreciation cost relating to non-operating aircraft
- Net cash from operations doubled YoY to RM2 billion

Corporate Exercises

Disposal of aviation business

- Jan 2024: Signed a non-binding offer letter with AAX for the proposed aviation disposal of AAB and AAGL
- Apr 2024: Signed Sale and Purchase Agreement ("SPA") with AAX
- Jul 2024: Submitted draft circular and notice of EGM to Bursa for the proposed aviation business disposal.
 Once approved by Bursa, the EGM will be called in 21 days
- Next key milestones:
 - o 3Q24: Shareholders and high court approval of transaction
 - o 4Q24: Completion of regularisation plan execution

Regularisation Plan

Alternatively, next key milestones:

- o 3Q24: Announcement on the regularisation plan, circular submission and Bursa approval
- o 4Q24: Shareholders and high court approval
- IH25: PN17 status to be lifted upon fulfilling all Bursa's requirement, incl demonstrating 2 qtr profitability

Fundraising

- Secured USD443 million revenue bond to refinance current lease liabilities and strengthen balance sheet, as well as for expansion and reactivation of fleet
- Next to focus on fundraising to aid the growth of other businesses within the Group

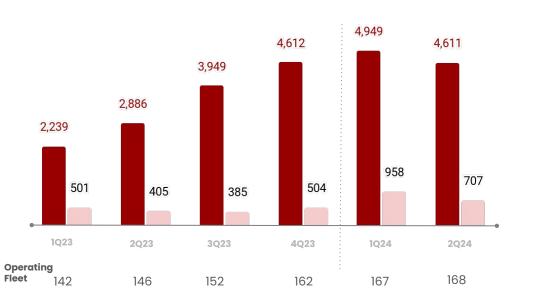

2Q2024 Aviation Highlights

Segmental Revenue & EBITDA

RM million

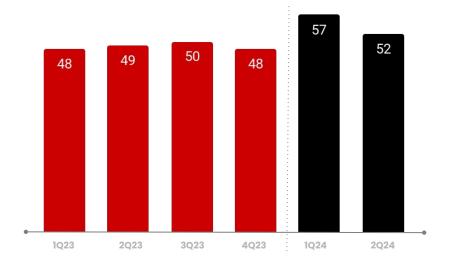

- Segmental revenue reached RM4.6 billion, represents 60% YoY increase
- EBITDA of RM707 million, up by 75% YoY, representing a healthy
 15% EBITDA margin (EBITDA would reach RM990 million if non operating aircraft were included)
 - Record quarterly load factor of 90%, improved by 3 ppts YoY,
 as demand continued to outperform capacity recovery
 - Average fare of RM240, up 17% YoY
 - Ancillary per pax of RM52 generating over RM820 million in revenue
- RASK of USc4.76 (+13% YoY) owing to 41% growth in pax carried coupled with 17% increase in average fare.
- CASK ex-fuel of USc2.94 (-11% YoY), due to lower cost per ask for several line items including maintenance, depreciation and others.
- Overall CASK of USc4.90 (-2% YoY) declined only slightly as it was offset by 6% YoY higher average fuel price of USD111 per barrel
- Operational CASK of USc4.77 (+2% YoY), due to higher average fuel price, while operational CASK ex-Fuel declined by 4% YoY

Ancillary Highlights

Quarterly ancillary per pax

RM

Posted ancillary revenue of RM820.5 mil

- Equivalent to 18% of total airline 2Q24 revenue
- YoY increase in take up rate for baggage and duty free segment
- Ancillary per pax remained above target of RM50 at RM52, up 6% YoY
 - Driven by baggage at RM39/pax, followed by fees RM9.4/pax, seat RM7.5/pax and food & beverages RM2.9/pax
- 50% of total ancillary revenue were contributed by AirAsia MOVE
- New initiatives includes seat upgrade onboard, xtra carry-on, zone up (channel expansion - check in page), Fast Pass (AOC expansion - Z2, FD, XJ)

Business Outlook: Aviation

- 3Q2024 Passenger traffic is expected to recover to 89% of pre-pandemic levels, supported by an 82% capacity recovery compared to 2019
 - Expecting the arrival of 5 A321 NEOs which will provide greater fuel efficiency capability, 4 have been delivered
 - The extension of visa-free travel from China through the end of 2025. Strong ongoing growth in demand across China (QoQ capacity up 30%) and India (10% higher than pre pandemic capacity)
 - Launching 21 new routes across five AOCs, with some routes open for sales starting in August and begin to operate in 4Q24
 - AirAsia Malaysia begin operate in Subang airport starting 30 August 2024, commence with two domestic destinations (Kuching and Kota Kinabalu with 14 flights weekly)
 - AirAsia Cambodia international routes begin in 3Q24, expanding to 3 aircraft by year-end, in progress securing permits to fly to 3 new countries
- Aggressive top line growth and profitability in 3Q23, including but not limited to revenue maximisation initiatives attributable to:
 - Target strong load factor of 90%, with domestic and international demand consistently strong
 - Average fare forecasted to remain higher than pre-pandemic, averaging RM240 per pax. Pricing strategies to capitalise on reduced competition following operational disruptions faced by a competitor in Malaysia
 - Ancillary per pax is expected to stay above RM50
- Positive outlook on macro indicators
 - Brent Crude Oil Price reach as low as USD79 per barrel in end of August 2024, expect to remain at USD78/9 level by end of 2024
 - o MYR strengthening against US Dollar, dropping below RM 4.40/USD in August, with an estimated year end closure at RM4.20-RM4.40/USD.
 - o Market expectations of further interest rate cuts in 2024, advantageous given that 70% of costs are denominated in US dollar

Business Outlook: Total Active Fleet

- By end 2024, expect to have **195** aircraft in operation
 - o **15** aircraft will be reactivated in 2H24
 - Expect to receive additional 8 deliveries in 2H24

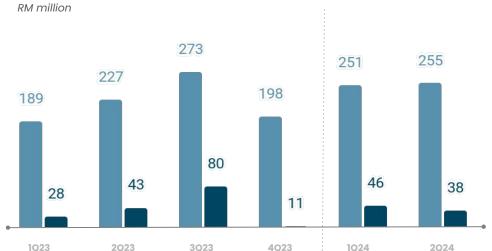

2Q2024 Capital A Aviation Services ("CAPAS") Highlights

Segmental Revenue & EBITDA

- CAPAS posted quarterly revenue of RM255 million, a 12% YoY increase, leading to over half a billion of YTD revenue
- Quarterly and YTD EBITDA stood at RM38.5 million and RM84.6 million.

ADE

- Segmental revenue reached RM173.9 million with an EBITDA of RM38.9 million. Of which, revenue was driven by component warehouse segment, followed by maintenance services.
- Despite a decrease in number of base maintenance checks, revenue remained robust due to higher-value heavy maintenance work performed during the quarter and a 22% increase in line maintenance checks.
- AEROTRADE saw a 42% increase in the number of parts sold to third-party, bringing the total number of parts sold surpassing 1,000 units during the quarter.

Santan

- Segmental revenue of RM48.8 million up by 88% YoY, with EBITDA of RM4.1 million
- The commencement of contract with AirAsia Philippines and AirAsia Indonesia in 2Q2024 boosted inflight segment revenue.
- Revenue Per Passenger (RPP) increased by 5% YoY to RM4.26
- Inflight conversion rate stood at 26%
- 15% increase in unit sales from frozen food during the quarter after successfully forging a partnership with Cafe Mesra.

2Q2024 Business Outlook: Capital A Aviation Services

ADE

- Previously in Malaysia and Cambodia, ADE continued to expand its line maintenance services to the Philippines and Indonesia, which is expected to fuel further growth in line maintenance activities in the coming quarters.
- Operationalised the first six lines of the new hangar in KLIA as per schedule, and anticipate the remaining eight lines to be completed by year-end.
 - In October, ADE will have a total of 16 lines, ie 14 in KHA and 2 in JHB
- Exploring opportunities to further expand to 26
 hangar lines and workshop facilities in the coming
 years to offer its services to a wider range of airlines
 beyond AirAsia.

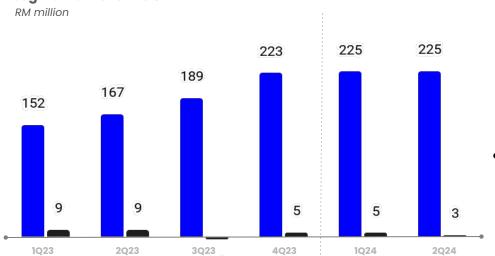

Santan

- Increase take up rate and revenue per pax by:
 - Focus on refining menu offerings by simplifying the selection while maintaining a high-quality and diverse range of options for all customers.
 - Emulating the airline's strategy to deliver great value and choice, the **introduction of entry-level meals** completes Santan's offering from light to classic and jumbo meal size to cater a wider range of preferences and budgets.
- Supply inflight food to other airlines
- More penetration on on-ground partnerships with Secret Recipe and Tealive, introducing a new line of sugar-reduced options called Club Zero.

2Q2024 Teleport Highlights

- Segmental revenue of RM225 million up 35% YoY, with EBITDA of RM2.5 million; 3 quarters in a row of profitability
 - Weakening industry yields (-30% YoY⁽²⁾) have been offset by volume growth in both Cargo and E-commerce
 - Freighter maintenance and reliability challenges reduced YTD profits by ~RM14 million⁽¹⁾; has been resolved in July and is expected not to recur
 - **QoQ revenue** flat due to minimal growth in belly capacity and airline launched sub-optimal cargo routes

Cargo:

- Delivered over 60,000 tonnes during the quarter, a 33% increase from 2Q23.
- YTD, delivered over 130,000 tonnes or 64% of total tonnage delivered in FY2023

E-commerce:

- Delivered over 15.3 million parcels in 2Q2024, a 215% increase from 2Q2023 by partnering closely with Temu and other Tier 1 e-commerce marketplaces
- ~31 million parcels were delivered in 1H2024, surpassing full year FY2023 total parcels delivered.

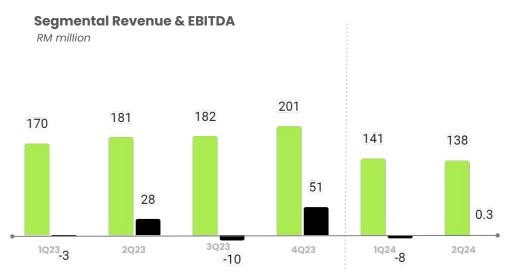

2Q2024 Business Outlook: Teleport

Teleport

- 2H2024 growth expectations are ~30% YoY, whilst delivering increasing returns to scale.
- We expect to deliver this performance by:
 - Growing our air network and capacity through partnerships with over 40 airlines:
 - Increase capacity on key routes by securing existing belly space in the market
 - Improve airline-cargo relationship when all aircraft is reinstated
 - Extend our network reach to major markets including Oceania and the Middle East among others, to meet the rising cross-border eCommerce volumes in the region
 - 10+ more Air Partners in the pipeline In the quarter Teleport onboarded Etihad Cargo and Turkish Cargo as its latest Air Partners
 - Improving freighter reliability (July: 98%; 1Q2024: 67%). Teleport continues to work closely with Airbus and EFW (A321F STC) to address spare parts availability and AOG responsiveness to deliver overall freighter profitability from 3Q2024 onward.
 - Scaling Teleport Next Day more rapidly (our end-to-end cross-border delivery service)

2Q2024 MOVE Digital Highlights

Quarterly revenue and EBITDA of AirAsia MOVE

Revenue	159	170	171	189	130	128
EBITDA	24	40	12	61	10	19

AirAsia MOVE

- AirAsia MOVE generated revenue of RM128 million and EBITDA of RM19 million, up 83% QoQ mainly due to reduction in operational cost.
- AirAsia MOVE is undergoing technology updates, which necessitated the Group to temporarily distribute AirAsia flights on other channels, thus increasing competition. However, MOVE is expecting recovery in 4Q2024 and return to 2023 levels in 2Q2025
- AirAsia Rewards topline grew by 45% YoY on the back of higher points issuance and improved redemption rates of points.
 Burn-to-earn ratio is 69% at the end of 2Q2024, a 13% YoY growth vs 2023
- AirAsia flight (Travel) conversion rates have risen to 8.7% and we are actively promoting cross-selling activities, led to to a 46% YoY increase in hotel bookings (Stays) for 2Q2024.
- Rides completion rates improved by 2 percentage points YoY.

BigPay

- Revenue reaching RM9.8 million and an EBITDA loss narrowing 25% to RM18.8 million (adjusting for reversal in bonus accrual recorded in 2Q23)
- Annualised Average Revenue Per User (ARPU) saw an improvement of 16% YoY, from the focus on building (and nudging users towards existing) features with positive unit economics

2Q2024 Business Outlook: MOVE Digital

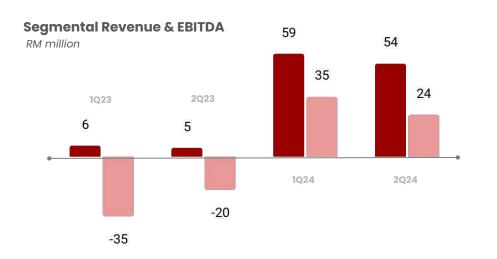

AirAsia MOVE

- Priority is to grow app users which have grown by 10% YoY and more likely to be cross-sell into buying other travel-related products
- Improve AA flights sales, where AirAsia Move to contribute 60% of AirAsia's overall distribution by year end, from the current 40%
- Increase conversions in flights, hotel, airport rides as well as building duty free and activities products
- Focus on improving price competitiveness for flights segment, with recovery to be expected in 4Q2024 and getting back to 2023 level by 2Q2025
- Demand generation and driver app improvement to boost ride hailing segment
- To onboard more external partners to join rewards program

BigPay

- Further cost optimisation through including and not limited to ecosystem synergies and vendor negotiations
- Acquire new customers through the recent launch of BigPay Lite, a closed-loop wallet on the AirAsia MOVE app which allows users to swiftly sign up for BigPay and use basic BigPay features directly on AirAsia MOVE app
- Focus on profitable payment products and corridors while deepening collaboration with AirAsia Move by making BigPay the primary payment option at checkout
- Drive volumes on cross-border remittances with an expanded product offering in 4Q2024 as well as targeted acquisition of migrant workers

Capital A International ("CAPI") 2Q2024 Highlights and 2Q2024 Outlook

- **Revenue stood at RM54 million,** declined slightly by 8% QoQ in line with the Aviation Group's revenue trend. However, grew by more than 10x YoY.
- Posted EBITDA of RM24 million, a turnaround from RM20 million in EBITDA loss in previous year.
- Brand licensing agreements with non-airline businesses target to take effect in 2025.

Capital A International

- Brand extensions and collaborations including licensing and merchandising - taking brand visibility into new industries, before new audiences
- Development and monetisation of **Character IPs** starting with AirAsia Buds
